### **Woodland Heights recognizes directors of the year**

**Lufkin, TX (November 16, 2011)** – Woodland Heights Medical Center recently awarded Clinical Director of the Year and Non-clinical Director of the year award to two outstanding department managers.

Susan Roig, Director of Surgical Services, was awarded the Clinical Director of the Year Award. Susan earned her Bachelors of Science in Nursing from the University of Central Oklahoma. Currently, she is working on her Master's Degree, with an anticipated graduation date of December 2011. Roig has been with Woodland Heights since 2006 and has held her current position for the past three years. She manages approximately 70 employees that she credits for this award. "I am fortunate to have so many experienced nurses and staff in surgical services. Without their dedication and teamwork, my job would be much more difficult," she states.

Darrel Givhan, Director of Material Management, was awarded the Non-Clinical Director of the Year Award. Earning his degree in Business Management from the University of South Alabama, Givhan has held his current position at Woodland Heights for three years. He and his employees are responsible for purchasing, distribution, shipping/receiving, contract compliance, product recalls and inventory control. Givhan recognizes the team effort. "This truly is an awesome award that shows that the entire staffing team at Woodland Heights respects and appreciates my contribution to the hospital and the community. I could not have achieved this award without the assistance of the great team at Woodland Heights."

### **About Woodland Heights Medical Center**

Established in 1918, Woodland Heights Medical Center was Lufkin's first hospital. Now, nine decades later, Woodland Heights is recognized throughout Deep East Texas as the leading provider of high

quality, innovative health care services. Accommodating a wide range of clinical specialties, Woodland Heights has achieved excellence in key medical and surgical areas including cardiology, pulmonology, neurology, orthopedic surgery, physical medicine/rehabilitation, vascular surgery and obstetrics and gynecology. Woodland Heights also offers a full range of outpatient diagnostic services including advanced imaging, laboratory, outpatient surgery and emergency services. Through its Rehabilitation Center, Woodland Heights offers cardiac rehabilitation, stroke recovery and physical and occupational rehabilitation. Combining modern facilities, leading technology, an exceptional staff and a commitment to the communities it serves, Woodland Heights Medical Center remains at the forefront of quality health care in Deep East Texas.
