

**Weight loss surgery helped
Brenda regain her health
... and her smile.**

Obesity was robbing Brenda McMullen of her health. Fortunately she found a hospital that had the vision to establish an advanced Bariatric Center. The Bariatric Center at Woodland Heights can help you find hope and discover a whole new – and healthier – you.

Join Darryl Meyer, D.O., and Greg DeArmond, M.D., for a FREE informational seminar to discuss the LAP-BAND® procedure. Surgical weight loss is not for everyone, but if you are 100 pounds or more overweight, it may be right for you. Call **936-634-0568** today for a reservation.

Monday, March 1, 6 p.m.
WHMC Second Floor Classroom

Seating is limited, so register today.
Feel free to bring a guest or support person.
